***Oath/Declaration***

1. This application presents a claim for subject matter not originally claimed or embraced in the statement of the invention. The added language per amendment received 9/28/05 that has been subsequently added to disclosure per substitute specification rec'd 6/12/06 warrants a new oath and declaration. A supplemental oath or declaration is required under 37 CFR 1.67. The new oath or declaration must properly identify the application of which it is to form a part, preferably by application number and filing date in the body of the oath or declaration. See MPEP §§ 602.01 and 602.02.

***Drawings***

2. The drawings were received on 6/12/06. These drawings are not accepted as detailed next.

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "710" has been used to designate both step to 'transmit selected items to gaming site' (paragraph 68, fig. 7) and step to 'send game component information' (paragraph 82, fig. 9). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Art Unit: 3712

4. The drawings are objected to under 37 CFR 1.83(a) because they fail to show fig. 9 (it is noted a new figure 7 was provided that may have included a typographical error of '7' for --9-- as described in the specification. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### *Specification*

5. The substitute specification received on 6/12/06 has been accepted; although, step 710 is duplicated in use between figure 7 and 9 as noted above.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to M. A. Sager whose telephone number is 571-272-4454. The examiner can normally be reached on T-F, 0700-1730 hours.
